

Activity 2: Create a Professional Infographic in Canva

Activity Title: *From Information to Visual Communication*

Objective:

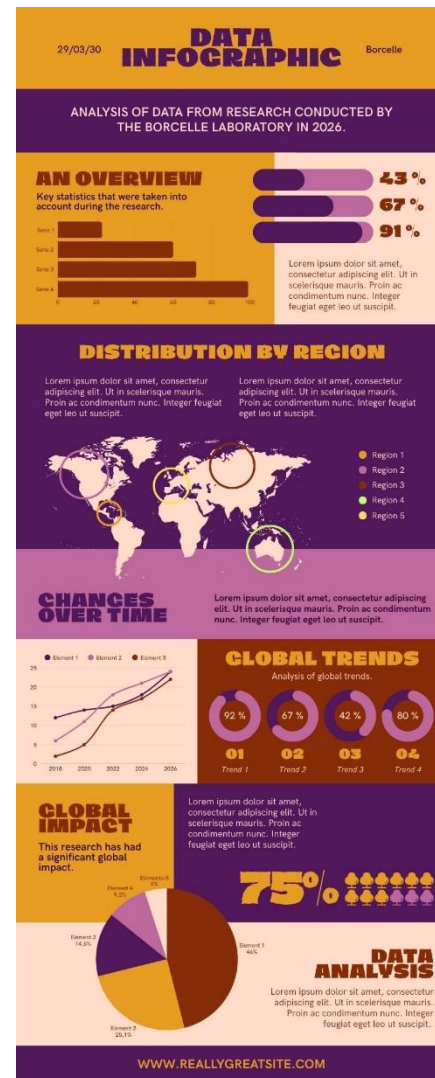

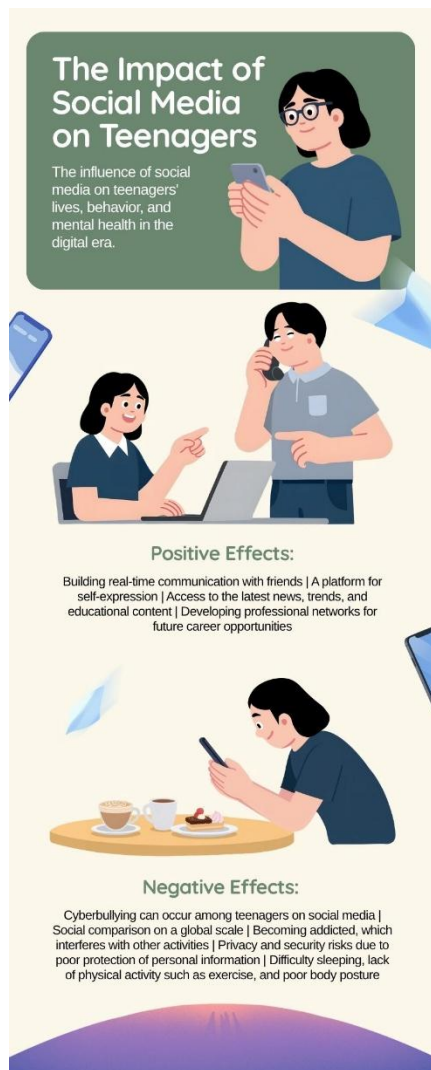

Students will create a professional infographic in Canva that demonstrates effective **documentation and visual communication** using hierarchy, layout, icons, color, and typography.

Task

1. Create a **two-page infographic** in Canva about a topic relevant to your field of discipline.

PAGE 1: Impact to the society

PAGE 2: Graphical illustration showing the percentage of students taking the same college course as you, using three other college courses as points of reference.

SAMPLE OUTPUT

2. **ASPECT RATIO:** 1080x1350 px.
3. Create a Repository named “Activity 2” in your GitHub account.
4. Upload your work to your GitHub Repository. Edit your ReadMe file that will describe your work (Apply the proper heading).
5. Submit the Link of your Repository to Daigler.

HOW TO UPLOAD YOUR FILE TO YOUR “Activity 2” Repository.

1. Create a repository named “Activity 2”.

Create a new repository

Repositories contain a project's files and version history. Have a project elsewhere? [Import a repository](#).
Required fields are marked with an asterisk (*).

General

Owner *  daww357 / Repository name *

✓ Your new repository will be created as Activity-2. The repository name can only contain ASCII letters, digits, and the characters -, ., and _.

Great repository names are short and memorable. How about [sturdy-eureka?](#)

Description

0 / 350 characters

Configuration

Choose visibility *

Choose who can see and commit to this repository

Add README ☒ Turn it ON
READMEs can be used as longer descriptions. [About READMEs](#)

Add .gitignore

.gitignore tells git which files not to track. [About ignoring files](#)

2. Click Create Repository

Add .gitignore

.gitignore tells git which files not to track. [About ignoring files](#)

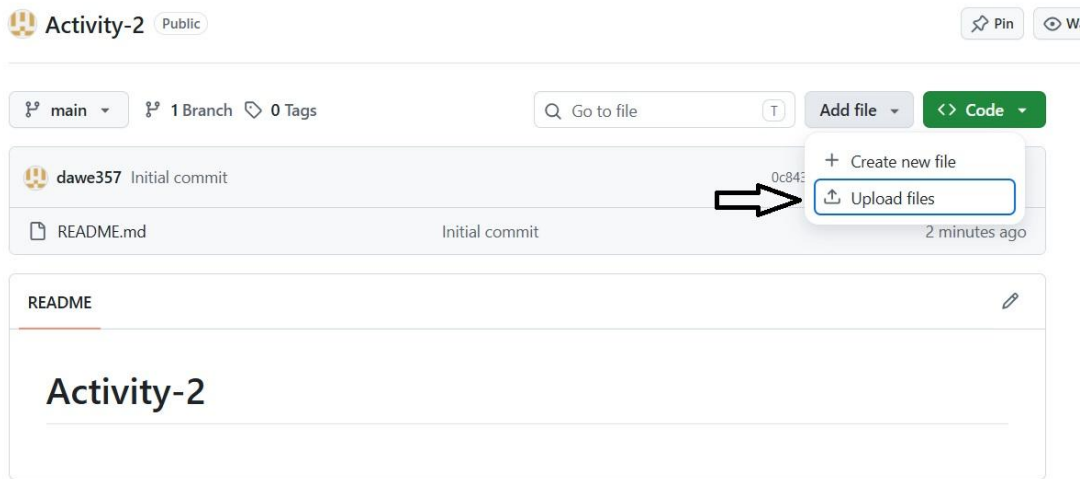

Add license

Licenses explain how others can use your code. [About licenses](#)

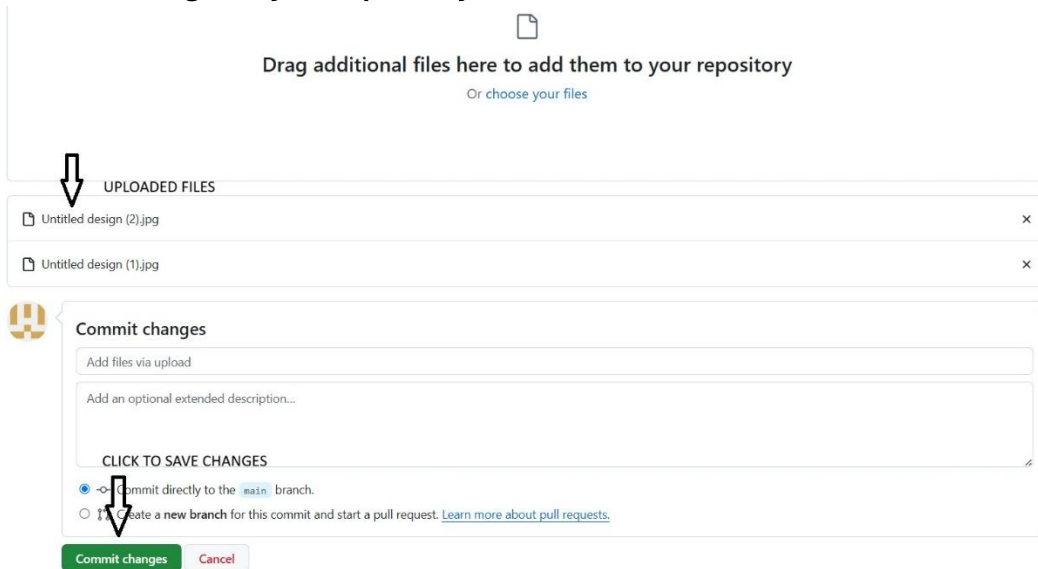

Create repository

3. Go to your created Repository (Activity 2).

4. Save the changes to your repository.

5. Copy the Link of your “Activity 2” Repository and Submit to Daigler.
